

**BURNT PRE-FABRICATED MONO-BLOCK BATH
FOR LINING MOLTEN ALUMINUM ALLOY
HOLDING CHAMBERS**

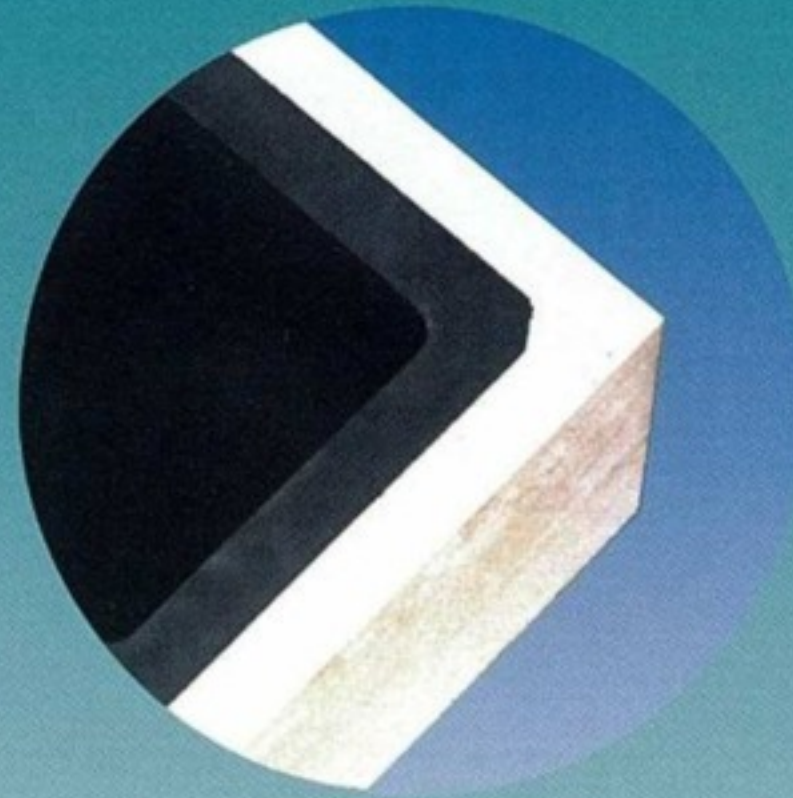

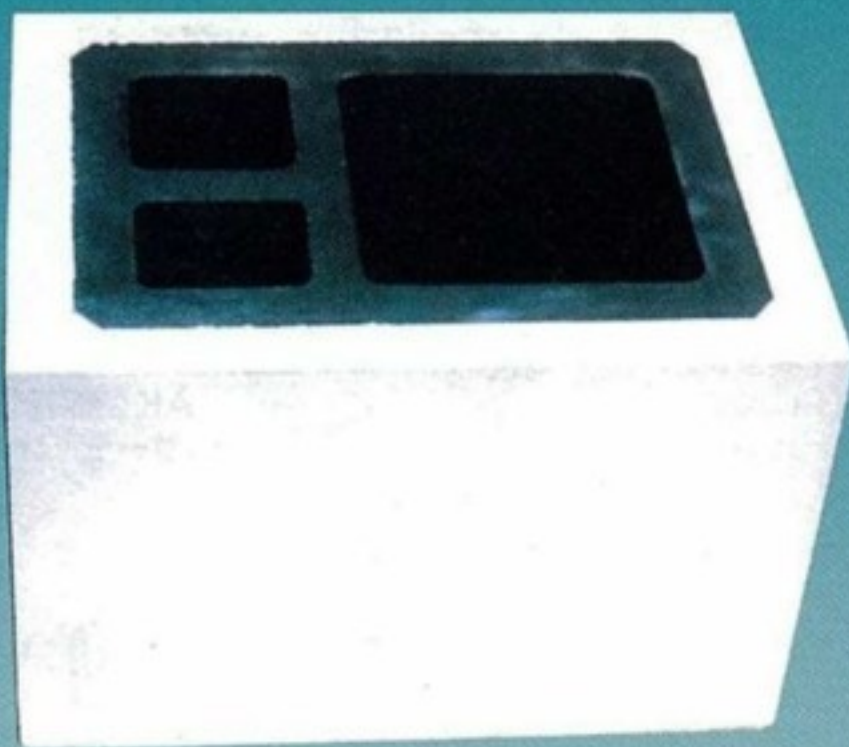

**HIGH STRENGTH
&
EASY MAINTENANCE**

ALUMIBATH™

Nippon Crucible Co., Ltd. is pleased to introduce our newly developed burnt pre-fabricated mono-block bath called ALUMIBATH which is applicable for lining molten aluminum alloy holding chambers.

Our ALUMIBATH (mono-block bath) has achieved a superior reputation for its high strength and excellent thermal conductivity among aluminum die casters in Japan.

**HIGH THERMAL CONDUCTIVITY · HIGH STRENGTH
PRE-FABRICATED MONO-BLOCK BATH**

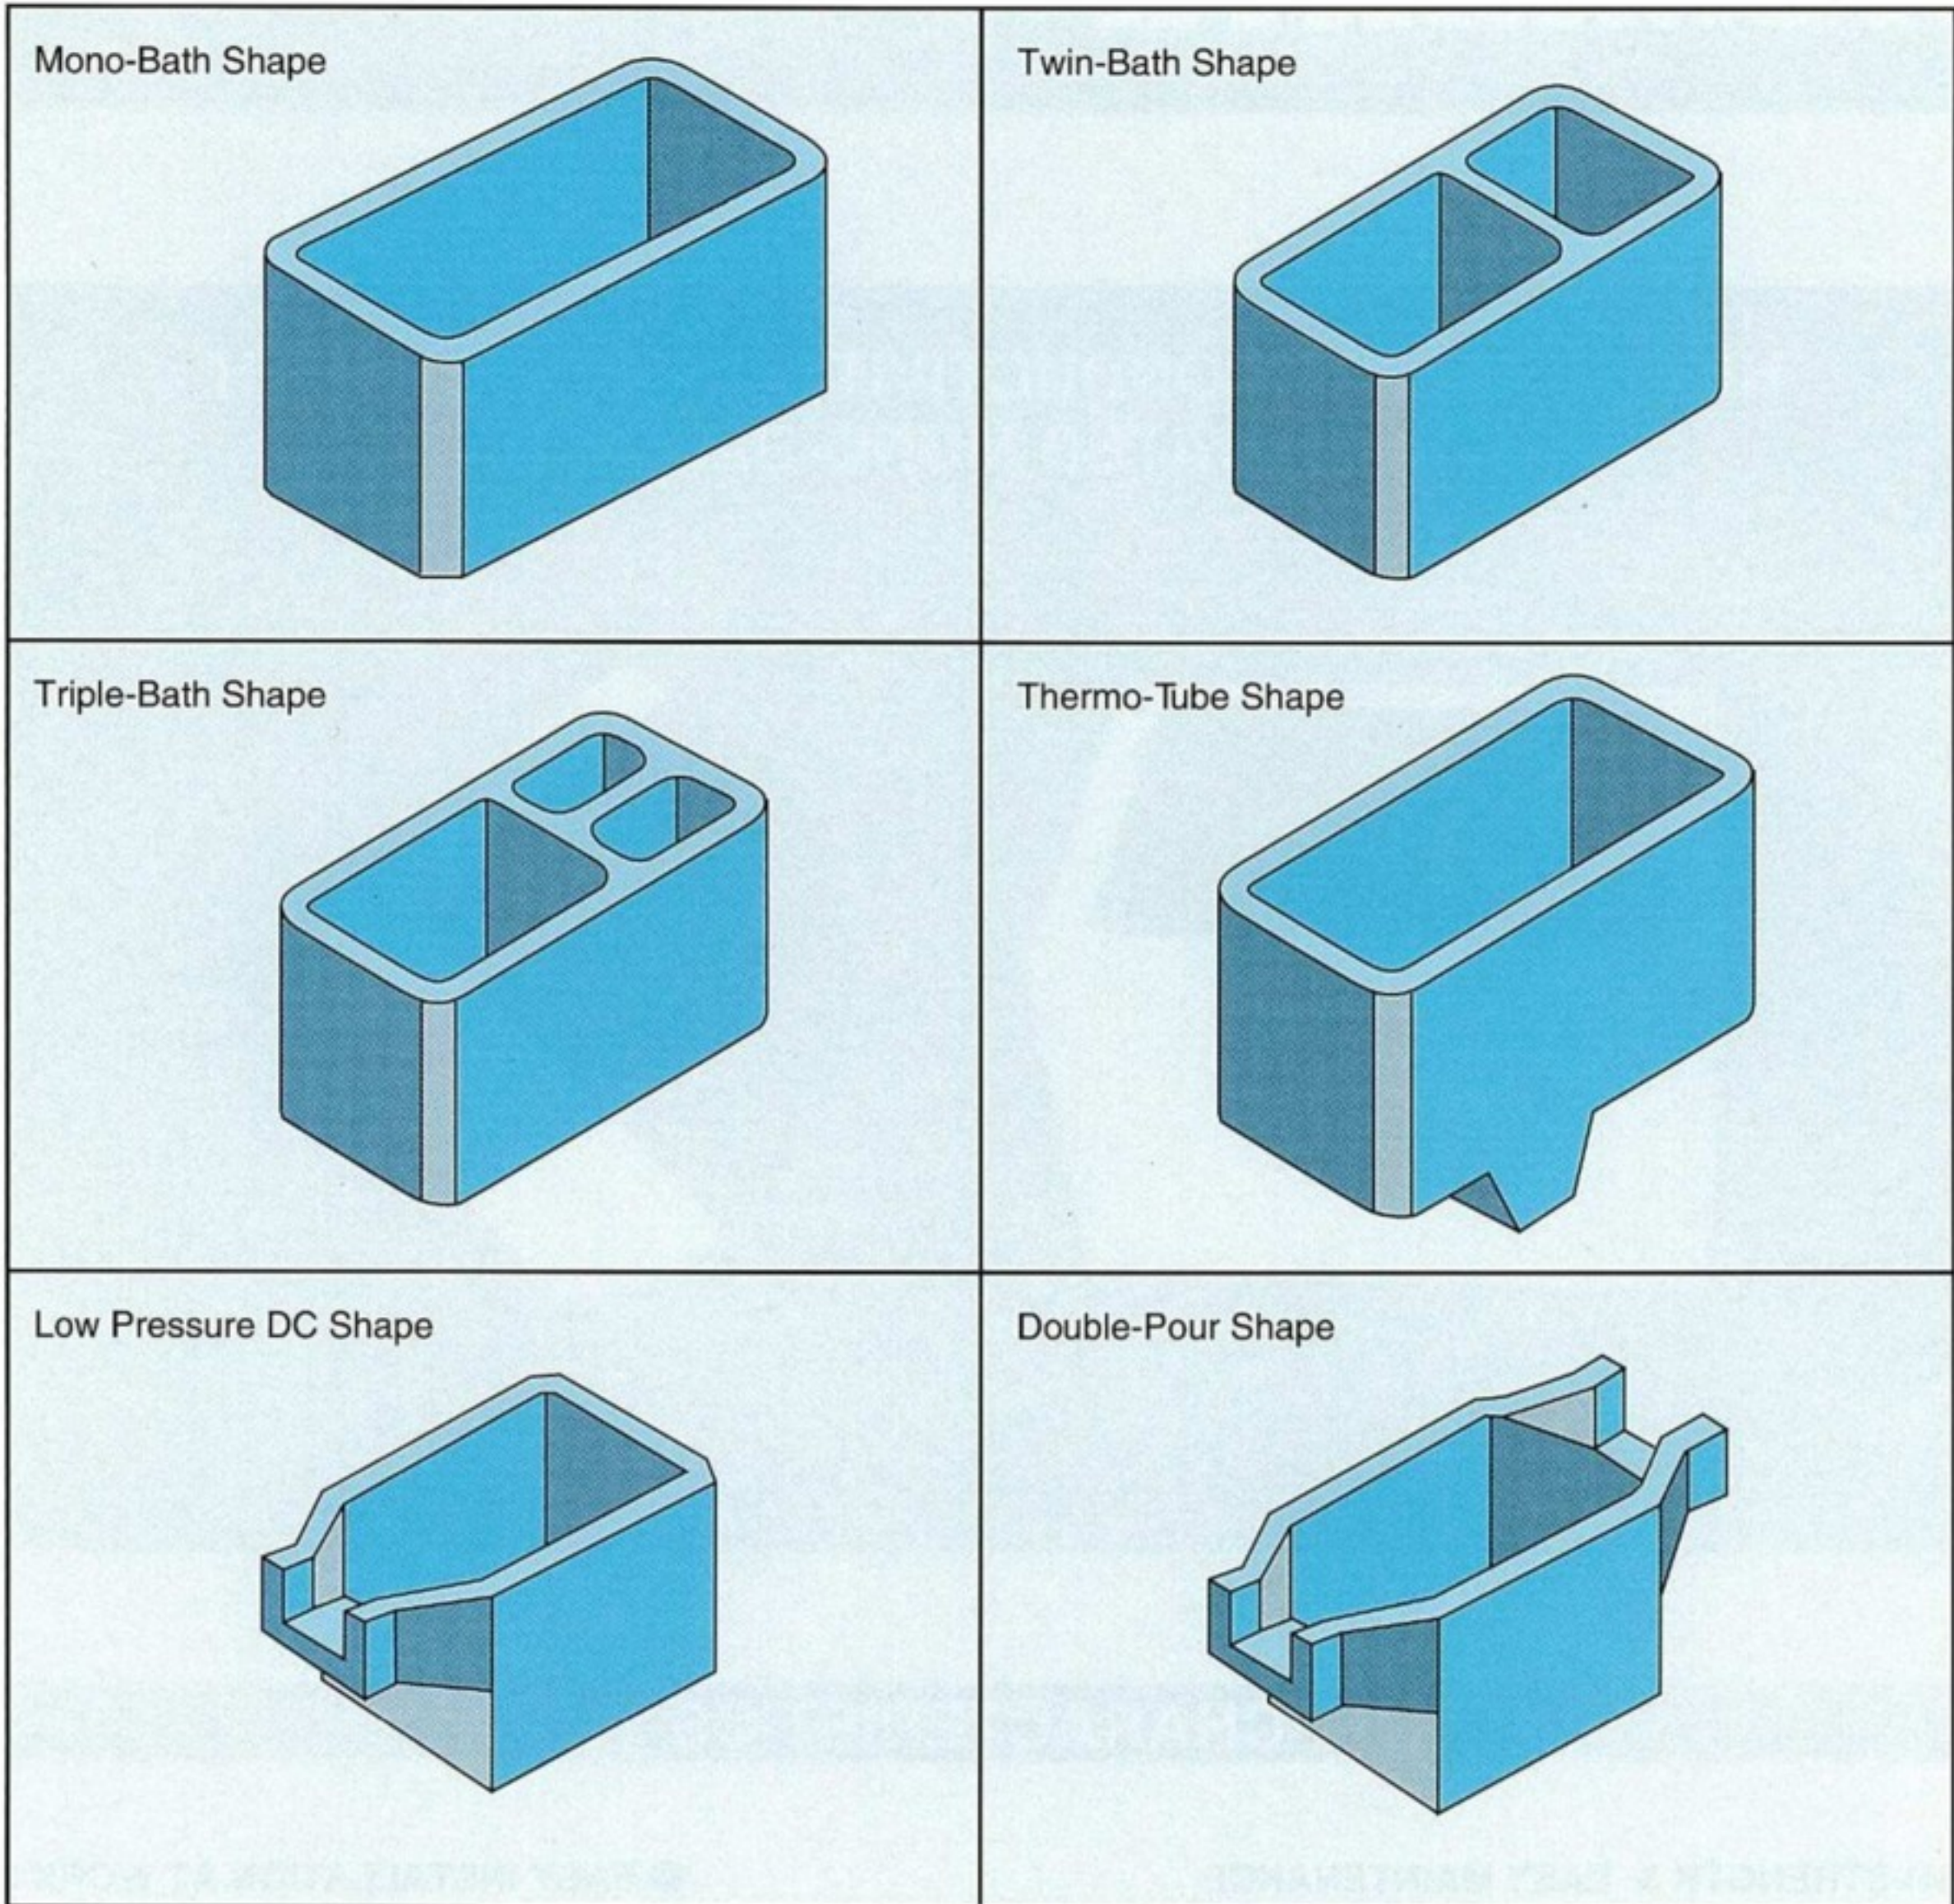

CHARACTERISTICS

- HIGH-STRENGTH & EASY MAINTENANCE
- EASY INSTALLATION AT WORK SITE
- READY-TO-USE (NO H₂ GAS GENERATED AT START-UP)
- SUPERIOR HEAT INSULATION
- MINIMUM TEMPERATURE DIFFERENCE BETWEEN UPPER AND LOWER AREAS OF THE BATH
- EXCELLENT FLUX RESISTANCE
